MRS. MARY MARTENSEN

DIRECTOR

HOME ECONOMICS DEPARTMENT

CHICAGO AMERICAN

INTRODUCTION

THE selection of Mrs. Mary Martensen to direct the activities of the Chicago Evening American's Home Economics Department was the outcome of a determination to secure for that position a woman fully qualified to uphold the ideal upon which the department was established. And the brief biographical sketch which follows makes easily apparent the wisdom of the choice made after a country-wide search.

Mrs. Martensen is a graduate in Home Economics and Dietetics, having studied at the Boston School of Domestic Science, Simmons College, and at the Teacher's College of Columbia University. Her first experience was as Director of Home Economics for the schools of Concord, New Hampshire. While there she also conducted courses in dietetics at the Concord City Hospital each week, and in Home Economics at Mount St. Mary's Academy at Hookset, New Hampshire.

Following this she became dietitian at Lake Forest Academy, Lake Forest, Illinois, leaving this position for the Home Economics Department of a great packing company. Here for four seasons she conducted newspaper cooking schools in thirty-five states, lectured to women's clubs in Chicago and its suburbs, and contributed to the household page edited in her department. She also prepared many recipe booklets, among them one now famous—"Sixty Ways to Serve Ham." During the last two years of this period Mrs. Martensen was the directing head of the department.

Then followed five years as head of a Home Economics Department which she established for one of the largest baking powder companies in America. In January of 1927 she established a Home Economics Department for a large wes-

tern newspaper, where she remained until she was selected by the Chicago Evening American for the position she now holds.

Within a few months the auditorium originally fitted for the department had to be enlarged to double its first size and capacity. Three courses of lessons were given in the first year of the department's operation, with a total attendance of 6,660. Editorially, Mrs. Martensen conducts a daily column in the Chicago Evening American, which is amplified to four columns on Mondays and Fridays, and a full page every Saturday in the American Home Journal, the Chicago Evening American's weekly magazine. Her material is illustrated on Monday and Saturday with photographs and sketches made in her department of special dishes and table settings created in the department.

In the department's first year, over 21,000 letters were received from readers, and over 4,200 telephone calls responded to. Twenty-five lectures before women's clubs, farmers' institutes, parent-teacher associations and high school classes were conducted. An uncounted number of visitors have come directly to the department's offices and been helped in such matters as re-decorating and re-finishing their homes, planning women's club programs, arranging large church or lodge suppers, planning parties of various kinds and weddings. An excellent library has been compiled and added to, much research work is done, and weekly radio talks are conducted.

The recipes which are given to you in this book are the fruit of Mrs. Martensen's great experience, and in use will bear witness to her skill. She and her assistants have tested every one of them—you cannot fail to get perfect results if you use the exact measurements given and follow directions closely. Experimental changes in a good recipe are rarely successful.

While you will find a wide variety of recipes in this book, you may have now or later some which do not appear here, and which you will wish to preserve. New dishes frequently appear in Mrs. Martensen's department in the Chicago Evening American which you may wish to clip and save. To make it possible for you to keep such recipes and household helps as you want to save in convenient fashion, a number of blank pages have been added at the back of this book, whereon you can paste everything you choose to preserve. Thus you will have in compact form not only the material the Chicago Evening American gives you now in this book, but all other material of a similar nature that you think worth keeping.

In conclusion, the Chicago Evening American welcomes the privilege of serving you that arises from your acceptance of this book. Mrs. Martensen will always be pleased to receive from you any opinions concerning the material published here, any suggestions you may have for its improvement, and any new recipes or housekeeping helps that you think might be useful to her in her work. CANAPES AND APPETIZERS

GRILLED OLIVES

Wrap stuffed olives in half slices of bacon, using toothpicks for skewers. Grill under the broiler in oven.

CHEESE OLIVES

Select large stuffed olives. Cut each olive in half and put together with a ball of seasoned, moistened cream cheese.

CAVIAR HORS D'OEUVRE

Cream together two tablespoonfuls of Roquefort cheese and four tablespoonfuls of cream cheese. Fill celery stalks of two-inch length with this mixture. Then with a knife, make a narrow, lengthwise trench through the center of each filled celery stalk. Fill the trench with a small quantity of caviar. Then cover it over with some of the cheese mixture, making it rounded. Sprinkle with paprika and serve.

EGG BASKETS

Hard-cook the desired number of eggs. Shell and chill them. Then cut them in halves lengthwise and remove the yolks. Slightly moisten the yolks with mayonnaise or cream and mold into balls the size of cranberries. Roll some of these balls in paprika, some in finely minced parsley, and some in grated cheese. Heap four or five of these in each egg-white basket and serve. Narrow strips of green pepper may be used for handles if time permits.

EGG ROSE AND OLIVE

Hard-cook the desired number of eggs. Shell and chill. Cut in halves lengthwise and remove the yolks. Soften the yolks with mayonnaise and season with vinegar, dry mustard and onion juice. Refill the egg-white with a layer of chopped olives and the egg yolk mixture, the latter forced through a pastry bag to form a yellow rose on top of the olive.

POTATO CHIPS ROQUEFORT

Moisten and mash Roquefort cheese until it is soft, then spread thin layers on crisp potato chips. Sprinkle very lightly with paprika.

STUFFED CELERY

Wash celery, remove all but young leaves. Scrape if necessary. Fill hollows with a soft cream cheese, using pimiento, Philadelphia or Neufchatel, seasoning last two with a little paprika and mixing with just enough cream or salad dressing to soften. Smooth off with a knife. Chill and pass with soup or main course.

QUICK CAVIAR CANAPES

Cut bread in one-fourth inch slices and shape with a circular cutter. Spread each piece with seasoned caviar and over that sprinkle sifted egg yolk. On the outside edge, set three slices of olives (stuffed with pimiento), arranging them at equal distance from each other.

CANAPES AND APPETIZERS

SMOKED FISH CANAPES

- | | |
|-----------------------------------|---------------------|
| 4 small slices toast | 3 tbsp. butter |
| 4 small pieces of any smoked fish | 1/4 c. tartar sauce |

Saute the toast in butter until light brown. Place a piece of fish on each slice of toast. On this put one tablespoon tartar sauce and garnish the top with a lattice work of the green pepper and pimiento strips.

ANCHOVY AND EGG SQUARES

- | | |
|-------------------------------|---------------------------------|
| 4 small pieces buttered toast | 1 tbsp. vinegar |
| 2 hard cooked eggs | 1 tbsp. olive oil |
| 1 tsp. anchovy paste | 2 small pickled beets (chopped) |

Mayonnaise

Cut eggs lengthwise. Remove yolks and mix with the anchovy paste, vinegar, oil and stuff the whites with the mixture. Place each egg half on a square of toast. Sprinkle the top with chopped beets.

CHEESE-SARDINE CANAPES

- | | |
|--------------------------------------|-------------------------|
| 4 sardines | 1 tbsp. grated cheese |
| 4 tsp. tomato catsup or tomato sauce | 2 pieces buttered toast |

Place a well drained sardine on each strip of toast (cut toast in half). Cover with 1 tsp. tomato catsup or sauce. Sprinkle with the grated cheese, allowing a tablespoon for all. Put in oven and brown. It will take only a minute. Serve either hot or cold.

DANISH CANAPES

Mix four tablespoons of creamed butter with four tablespoons of grated fresh horseradish root. Cut graham bread in thin slices and then in domino-shaped pieces. Spread these with the horseradish butter, and over that lay two very narrow strips of smoked salmon lengthwise and two across. Place three capers lengthwise, one in each center square made by the salmon, and on the long outer edges place a border of chopped parsley.

CHEESE AND ANCHOVY CANAPES

- | | |
|---|--------------------------------|
| 1 pkg. cream cheese | 1/3 tube anchovy paste |
| 1 tbsp. gelatine (dissolved in 1/4 c. cold water) | Pinch salt, pepper and paprika |
| 1 tsp. lemon juice | |

Mix above ingredients to a creamy paste and spread in a shallow pan lined with oil paper. Place in refrigerator and leave there two to three hours, sufficient time to allow mixture to jelly. When ready to serve, spread on rounds of day-old bread. Top each canape with a thin slice of tomato, a very thin slice of hard-cooked egg, a dab of boiled dressing, and a small amount of caviar.

Over the top, place strips of pimiento in trellis fashion and garnish with a bit of cress. Serve on sauted ovals of bread which have been scored and have had a few crumbs removed from center. Sprinkle paprika over the top of egg, and a few shreds of grated horseradish root to look light and fluffy.

FRUIT COCKTAILS

MELON BALL COCKTAIL

FISH

FISH A LA CREOLE

| 2 tbsp. butter | 1 tbsp. chopped onion |
| 2 tbsp. flour | 1 tbsp. chopped green pepper |
| | 1/4 c. dried, ground bread crumbs |

- | | |
|-----------------------|----------------------|

| 1 1/2 c. bread crumbs | 1 egg |
| 1/2 c. milk | 1 tsp. salt |
| 2 tbsp. butter | 1/4 tsp. pepper |

Drain salmon and break into small pieces. Add remaining ingredients and mix well. Mold into a loaf. Bake in a moderate oven, 350° F. until well browned.

PLANKED FISH

Planked fish service is suitable for any fish weighing three pounds or over. This form of cooking fish requires less attention than others. Shad, white fish, pike and trout are especially suitable for planking.

To prepare, split the fish and remove all the bones. Place on an oiled plank. The fish plank is an oval-shaped board about one inch thick, made from birch or other suitable wood, with a deep groove around the edge. The board should be heated as much as possible without scorching.

The fish is then placed upon the plank, skin side down. If not a fat fish, baste with a little melted butter and sprinkle with salt and paprika. Place under the broiler burner, and after the surface is slightly brown, reduce the heat. A four-pound fish requires about thirty minutes. Grated cheese may be sprinkled over the planked fish about five minutes before removing from the broiler. Serve with a border of riced potatoes or potato roses.

OYSTERS ESCALLOPED

- | | |
|-----------------------|---------------------------|
| 1/2 pt. oysters | 1/2 c. stale bread crumbs |
| 2 tbsp. oyster liquor | 1 c. cracker crumbs |
| 2 tbsp. milk or cream | 1/2 c. melted butter |

Salt and pepper to taste

Mix bread and cracker crumbs and stir in butter. Put a thin layer in bottom of buttered shallow baking dish, cover with oysters and sprinkle with salt and pepper; add 1/2 each of oyster liquid and cream. Repeat, cover top with remaining crumbs. Bake 30 minutes in hot oven. Never allow more than two layers for escalloped oysters; if three layers are used, the middle layer will be under done. Spread three hard cooked eggs, chopped fine, over top with crumbs before baking, if desired.

EGGS

Eggs, like milk, form a typical food, inasmuch as they contain all the elements, in the right proportion, necessary for the support of the body. Their highly concentrated, nutritive value renders it necessary to use them in combination with other foods rich in starch (bread, potatoes, etc.) In order that the stomach may have enough to act upon, a certain amount of bulk must be furnished.

White of egg contains albumen in its purest form. Albumen coagulates at a temperature of from 134 degrees to 160 degrees F. Herein lies the importance of cooking eggs at a low temperature, thus rendering them easy of digestion. Eggs cooked in boiling water are tough and difficult of digestion, and should never be served.

When eggs come from the market they should be washed, and put away in a cold place.

Ways of Determining Freshness of Eggs

1. Hold in front of candle flame in dark room, and the center should look clear.
2. Place in basin of cold water, and they should sink.
3. Place large end to the cheek, and a warmth should be felt.

HOW TO STORE EGGS (Water Glass Method)

Eggs for preserving should be purchased during the Spring and early Summer as they are best in quality and cheapest at that time. They keep better than eggs produced later in the season. The eggs should not be washed. Water glass is the best preservative used. Purchase at the drug store. Mix enough for one year only. It should not be used a second time.

Mix one part liquid water glass with nine parts water which has been boiled and cooled. Stir the mixture thoroughly. Pack the eggs in clean earthenware jars and pour the water glass mixture over them. The liquid should stand two inches above the eggs in the jar. Ten quarts of liquid will preserve fifteen dozen eggs. It is best to preserve them in smaller jars with fewer eggs in a jar.

SHIRRED EGGS

Butter ramekins. Put one egg into each; dust lightly with salt and pepper. Cover with buttered crumbs. Bake until eggs are set, in moderate oven.

EGGS A LA GOLDENROD

3 hard-cooked eggs	$\frac{1}{2}$ tsp. salt
1 tbsp. butter	$\frac{1}{8}$ tsp. pepper
1 tbsp. flour	5 slices toast
1 cup milk	Parsley

Make a thin white sauce with butter, flour, milk and seasonings. Separate yolks from whites of eggs. Chop whites finely, and add them to the sauce. Cut four slices of toast in halves lengthwise. Arrange on platter, and pour sauce on toast. Force the yolks through a potato ricer or strainer, sprinkling over the top. Garnish with parsley and remaining toast, cut in points.

POACHED EGGS

Have ready a frying pan two-thirds full of boiling salted water, allowing one-half tablespoon salt to one quart of water. Put two or three buttered muffin rings in the water. Break each egg separately into a saucer, and carefully slip into a muffin ring. The water should cover the eggs. When there is a film over

EGGS

the top and the white is firm, carefully remove with a buttered skimmer to circular piece of buttered toast, and let each person season his own egg with butter, salt and pepper. If cooked for an invalid, garnish with four toast points and a bit of parsley. An egg poacher may be used instead of muffin rings.

SOFT-COOKED EGGS

Place the eggs in a saucepan and carefully pour boiling water over them. Cover, and place where they will not boil. Let stand from 4 to 8 minutes, depending upon the softness desired. For hard-cooked eggs, let them stand from 20 to 30 minutes.

STEAMED EGGS

Butter a custard cup for each egg desired and break an egg into it. Season with salt and pepper. Place the cups in a pan of gently boiling water (water should come half way up side of cup.) Cover and steam until white of egg is firm. Serve on crisp toast.

SCRAMBLED EGGS

Five eggs, 5 tablespoons milk, 2 tablespoons butter, salt and pepper to taste. Place butter in the top part of the double boiler to melt. Beat eggs slightly, add the milk, salt and pepper. Pour into the butter and cook until of a creamy consistency, stirring often.

EGGS AU GRATIN

Arrange dropped eggs on a shallow buttered dish. Sprinkle with grated cheese. Pour over eggs one pint yellow Bechamel sauce. Cover with stale bread crumbs and sprinkle with grated cheese. Brown in oven. Tomato or white sauce may be used.

OMELETTE

4 eggs
 $\frac{1}{2}$ tsp. salt

4 tbsp. hot water
1 tbsp. butter

Few grains pepper

Separate yolks from whites. To yolks add salt, pepper, and hot water, and beat until thick. Beat whites until stiff, and fold into first mixture. Heat omelette pan and butter sides and bottom. Turn in mixture, spread evenly, place on range. Cook slowly, turning the pan that omelette may brown evenly. When well "puffed" and delicately browned underneath, place pan on center grate of oven to cook the top. The omelette is cooked if it is firm to the touch when pressed by the finger. If it clings to the finger like the beaten white of egg it needs longer cooking. Fold and turn out on hot platter. Milk is sometimes used in place of hot water, but hot water makes a more tender omelette. A few grains baking powder are used by some cooks to hold up an omelette.

TO FOLD AND TURN OMELETTE

Hold an omelette pan by handle with the left hand. With case knife make two one-half inch incisions opposite each other at right angles to handle. Place knife under the part of omelette nearest handle, tip pan to nearly a vertical position; by carefully coaxing the omelette with knife, it will fold and turn without breaking.

EGGS

DEVILED EGGS

Cook four eggs for 20 minutes, or until hard cooked; when cold, remove shell and cut lengthwise. Remove yolks and set whites aside. Rub yolks smooth and mix with one-fourth teaspoon salt, one half teaspoon mustard, one fourth teaspoon cayenne pepper, one teaspoon vinegar and one tablespoon melted butter. Roll into balls size of original yolk. Place ball in each half white of egg, and serve on crisp lettuce leaves.

EGGS A LA SUISSE

4 eggs	Salt
1/2 c. cream	Pepper
1 tbsp. butter	Cayenne

2 tbsp. grated cheese

Heat a small omelette pan, put in butter, and when melted add cream. Slip in the eggs one at a time, sprinkle with salt, pepper and a few grains of cayenne. When whites are nearly firm, sprinkle with cheese. Finish cooking, and serve on buttered toast. Strain cream over the toast.

SOUFFLE

3 tbsp. butter	1/2 tsp. salt
3 tbsp. flour	Few grains of cayenne
3/4 c. scalded milk	3 egg yolks

3 egg whites

Melt butter, add flour, and when mixed add gradually scalded milk, salt and cayenne. When creamy take from fire, add yolks of eggs beaten thick, and lemon colored. Cool mixture, and cut and fold in whites of eggs beaten until stiff. Pour into a buttered baking dish. Bake 20 minutes in slow oven. Serve at once.

CHEESE SOUFFLE—Add 1/2 cup grated cheese with the seasonings.

VEGETABLE SOUFFLE—Add 1 cup diced vegetables to cream mixture before adding egg whites.

FISH SOUFFLE—Add 1 cup flaked fish to cream mixture.

MEAT SOUFFLE—Add 1 cup diced meat to cream mixture.

HOME-MADE NOODLES

Beat 1 egg with 1/2 tsp. salt, and work into it as much flour as it will take up (about 3/4 cup). Knead smooth, roll out on floured board to paper thinness. Throw a napkin over dough and let stand 15 minutes in cool place. Then roll up like a sheet of music, and cut in shreds like cole slaw. Dust with a little flour to keep from sticking together. Keep in covered container until ready to cook.

NOODLE RING

3 c. fine or broad noodles, cooked and drained	1/2 c. cream
5 egg yolks, well beaten	5 tbsp. melted butter
5 egg whites	Salt and pepper to taste

Mix above ingredients in the order given. Fold in egg whites beaten stiff. Bake in well greased ring mold set in pan of water, in moderate oven, 45 minutes to one hour. Fill center of ring mold with any creamed meat, fish or vegetable. Serve hot.

RAISED AND QUICK BREADS

ONE HOUR BREAD, COFFEE CAKE, ROLLS

Crumble four cakes compressed yeast into a large bowl; add one-third cup sugar, two teaspoons salt; two eggs. Next measure two cups of milk and heat until lukewarm. Add to the mixture in bowl. Beat the yeast mixture until yeast is dissolved and the ingredients well mixed. Add seven cups of sifted flour and mix. This mixing can be done with one hand, spreading the fingers apart and using a squeezing, mixing method. Add four tablespoons of melted butter. When well mixed turn the dough onto a lightly floured bread board. Grease the mixing bowl. If the bowl has particles of dough or flour adhering to it, wash it before greasing.

Allowing the dough to stand these few minutes on the board causes it to absorb moisture, and yet it will not be too sticky to knead; no more flour need be added to make it into a smooth dough. After thoroughly kneaded, put back into greased mixing bowl. Coat with a thin layer of shortening, to prevent a crust from forming on the outside of dough. Let the dough rise in a warm place. Time is very important where a large quantity of yeast has been used, so do not let the dough rise longer than 30 to 35 minutes. At the end of this period, turn the dough out on the breadboard. Do not knead dough at this time, but handle it gently and quickly, and you will have no difficulty in shaping into bread, rolls or coffee cake. Too much handling toughens the dough. Sprinkle with sugar and spices and add nuts or raisins, if desired. Mix part in dough or spread in roll, as for jelly roll.

For the first 20 minutes bake bread in a 350 degrees F. oven, then increase temperature to 400 degrees F. for the next 20 minutes. For the balance of the baking period reduce heat to 350 degrees F. The total baking period is 50 or 60 minutes for two loaves.

PARKER HOUSE ROLLS

- | | |
|--------------------------|---------------|
| 1 cake compressed yeast | 2 tbsp. sugar |
| 2 cups lukewarm milk | 1 tsp. salt |
| 4 tbsp. fat | 3 pts. flour |
| 1 cup flour for kneading | |

Dissolve yeast in a little of the milk. Pour remainder of milk over butter, sugar and salt. Add yeast and stir in half the flour. Beat until smooth, cover and let rise until full of bubbles. Add remainder of flour, toss on floured board and knead until dough is smooth and does not stick to board. Cover and let rise until double in bulk. Roll dough out to one-half inch thickness, cut with floured biscuit cutter. Grease each roll through the center with the back of a knife, brush butter across half of each roll and fold over. Place in pan and let rise until light. Bake in a hot oven for fifteen minutes.

WHOLE WHEAT BREAD

Soften the yeast in the tepid water and add to the orange juice with the grated orange and lemon rind. Add the salt, melted butter, sugar and egg yolks well beaten; then stir in the flour gradually, in order not to get the dough too stiff. Knead well until the dough is smooth and elastic, then cover and set aside for two hours in a moderately warm place. When light, work once more very lightly and make into two loaves. When double their bulk, bake in a moderately hot oven for forty-five minutes. When made into sandwiches makes a delicious addition to afternoon tea.

Return to bowl, cover with a clean cloth kept for the purpose, and board or tin cover; let rise over night in a temperature of 65 degrees F. In morning cut through and turn over dough several times with a case knife. Toss on board slightly floured, knead to distribute air, shape into loaves or rolls, place in greased pans. Have pans nearly half full. Cover, let rise again to double its bulk, and bake in hot oven.

Knead to mix ingredients until mixture is smooth, elastic to touch, and bubbles may be seen under surface. Return to top of double boiler, which has been oiled, and place over warm water, 95 degrees to 100 degrees F. Cover with a cloth, then with the lid, and let rise until double in bulk. Turn onto floured board or cloth and divide.

When dough has risen, turn onto floured board, pat and roll to one-half inch in thickness. Cut in strips eight inches long and three-fourths inch wide. Let rise until doubled in size.  $\frac{1}{2}$ lb. currants

$\frac{3}{4}$ cup lard
 $\frac{1}{4}$ cups butter
1 tbsp. water

Divide into eight equal pieces and work out each piece with the hand into a flat, round cake not more than one-half inch thick, and all about the same size. Pinch around the edges with the finger and thumb, cut a small round out of the center and the rest of the cake into six or eight pieces. Or cut in smaller rings and divide in half. RAISED AND QUICK BREADS

ICE BOX ROLLS

1 cake compressed yeast	2 cups warm water
$\frac{1}{2}$ cup lukewarm water	$\frac{1}{2}$ cup sugar
$\frac{1}{2}$ tsp. sugar	$\frac{1}{2}$ cup shortening
$1\frac{1}{2}$ tsp. salt	8 cups flour

Dissolve the yeast in one-half cup lukewarm water; stir in one-half teaspoon sugar and let mixture stand for about $\frac{3}{4}$ to 1 hour. Cream shortening with rest of sugar, add beaten egg, salt, warm water and dissolved yeast. Then stir in enough flour to make a dough that is stiff enough to knead. Knead on a floured board until it is smooth and elastic. Return the dough to the bowl which should be well greased to prevent the dough from sticking. Brush the top of the dough with melted fat to prevent a crust forming. Cover and keep in a warm place (not too hot) until the dough doubles its bulk. Knead it down again. Keep out some dough if you want to use it for rolls immediately.

Put the rest in the refrigerator in a covered bowl. The dough that you want to make up into rolls should be shaped, placed on greased pans and let rise until light. For clover leaf rolls, you take off small bits of dough and roll them into balls about one inch in diameter. Put three of these balls side by side in each well greased muffin pan. Brush the tops with butter to prevent crusting and put in a warm place until double in bulk. Bake in a hot oven ($400-425^{\circ}$ F.) until nicely browned on top.

When you are ready to use the dough that has been kept in the ice box, do the same thing—take out the amount you want, knead and shape it, and let the rolls rise before baking.

APPLE, PEACH OR PLUM FILLED COFFEE CAKE

1 cup hot milk	1 egg
$\frac{1}{3}$ cup butter, or other fat	$\frac{3}{4}$ yeast cake dissolved in
$\frac{1}{4}$ cup sugar	$\frac{1}{4}$ cup lukewarm milk
$\frac{1}{2}$ tsp. salt	$2\frac{3}{4}$ cups flour

Add butter, sugar and salt to hot milk; when mixture is lukewarm add dissolved yeast cake, egg, well beaten, flour to make a stiff batter, cover and let rise. Spread in buttered dripping pan one-half inch thick. Cover and let rise again. Before baking melt two tablespoons butter and spread over the coffee cake; sprinkle with sugar and cinnamon.

Cover a well greased oblong tin as thin as possible with raised dough. Core, pare and cut four or five apples in eighths. Lay them in parallel rows on top of the dough and sprinkle with sugar and cinnamon. Beat the yolk of an egg, add three tablespoons cream, and drip around apples. Bake twenty to thirty minutes in hot oven, or until crust is well baked and apples are soft. Peaches or plums may be used in place of the apples; pare the peaches, cut in halves and remove the stones. If plums are used, wipe carefully, cut in halves and remove the stones.

- | | |
|--------------------------|--------|
| 2 cups grated raw potato | Milk |
| 1 egg | Salt |
| 2 tbsp. flour | Pepper |

Onion juice

Scrub and pare the potatoes and grate them into cold water to keep them from discoloring. Drain well and to every two cups of potato, allow one beaten egg, two tablespoons of flour and sufficient milk to make a stiff batter. Season with salt, pepper and onion juice. Cook in a frying pan with hot fat to the depth of about one-half inch. A large spoonful of batter makes a good-sized cake. Cook until well browned and crisp and serve as a vegetable with meat and gravy. Especially good with a stew.

SANDWICHES

About an hour before you wish to serve the sandwich, remove the cloth and cover the loaf with a mixture of cream cheese made thin enough to spread with a thick mayonnaise dressing. Garnish the loaf with slices of pimiento olive and walnuts or almonds. You may make a very attractive flower, using the pimiento olive slices for the center and strips of pimiento for petals.

BEVERAGES—HOT AND COLD

OLD FASHIONED BOILED COFFEE WITH EGG

- | | |
|------------------------------|--------------------------|
| 1 cup coffee (ground medium) | 1 tbsp. egg or |
| 3 cups boiling water | Shell of one egg crushed |
| 1 cup cold water | |

Place coffee in pot. Add one-half cold water and egg. Mix thoroughly. Add boiling water. Place over fire and allow to boil up three times. Add remaining cold water gradually. Allow to stand three minutes before serving.

PERCOLATED COFFEE

Place the coffee in the strainer in the upper part of the pot, using one rounding tablespoon to each cup of water. Let the water bubble up through the tube, percolating through the coffee into the lower part until the coffee becomes the desired strength, as shown through the glass top. Serve at once. Most undesirable coffee may be made in a percolator if it is allowed to continue cooking long after the proper strength is reached.

TEA

Freshly boiling water is necessary, otherwise the tea is flat and insipid. Use one teaspoon of tea to each cup of water. Pour the boiling water on the tea leaves in an earthen pot. Allow this to brew for three minutes, if desired, with a maximum of aroma and a minimum of tannin or astringent flavor. Pour off the liquor into another warm earthenware pot and serve at once. More "body" is given by longer brewing, due to extraction of more tannin. Five minutes is sufficient time.

HOT CHOCOLATE

- | | |
|---------------------|-----------------|
| 2 squares chocolate | 3 cups milk |
| 2 to 4 tsp. sugar | Few grains salt |
| 1 cup cold water | |

Place chocolate, sugar and salt in saucepan, add water and boil one minute, stirring until chocolate melts. Add milk and reheat, but do not boil. Then beat with egg beater until light and foamy. Serve as soon as possible after preparing as the fat will separate from the liquid if allowed to stand long over heat.

HOT COCOA

- | | |
|-------------------|------------------|
| 4 tbsp. cocoa | 1 cup cold water |
| 2 to 4 tsp. sugar | 3 cups milk |
| Few grains salt | |

Measure cocoa and water into a saucepan. Stir over direct heat until mixture is smooth. Boil about two minutes and add salt, sugar and milk. Heat until foamy, beat well and serve. If not to be served at once place over hot water until used. Left-over cocoa may be reheated for another meal. One teaspoon vanilla and one-fourth teaspoon of cinnamon may be added just before serving. Whipped cream or marshmallows may be served with the cocoa.

BEVERAGES

FOUNDATION PUNCH

Four oranges, 2 lemons, 1 cup sugar and $\frac{1}{2}$ cup water. Squeeze the juice from the oranges and lemons. Boil the sugar and water to the thread stage. Add fruit juice and water to make two quarts. One cup chopped mint leaves may be steeped in boiling water, strained and substituted for part of the water. Variety is gained by adding other fruit juices, sweetening if necessary with more of the syrup.

BERRY PUNCH—Equal parts foundation punch and berry juice.

CHERRY OR CURRANT PUNCH—Three parts foundation to one part fruit juice.

GINGER PUNCH—Boil $\frac{1}{2}$ -lb. cut Canton ginger in the foundation syrup.

GRAPE PUNCH—Equal parts foundation punch and grape juice.

FROSTY PUNCH

Two cups of cold tea, a bunch of crushed mint leaves, the juice of two lemons and two oranges, one level cup of granulated sugar, and three whole cloves. Let stand on the ice for several hours. When ready to serve strain and add one orange cut in bits, one pint of white grape juice, a few bits of pineapple, and one quart of ginger ale. Pour into tall glasses, half filled with cracked tea.

ICED CAFE AU LAIT

COCOA FRAPPE

6 tablespoonfuls cocoa, 4 tablespoonfuls sugar, 2 cupfuls boiling water, 1 cupful milk (whip half), $2\frac{1}{2}$ cupfuls cold water, and chopped ice. Make paste of first three ingredients, cool, add liquid and ice. Mix well and serve.

EGG LEMONADE

2 tablespoonfuls of lemon syrup, 1 egg and $\frac{1}{2}$ glassful of water, boiled and cooled. Mix the syrup, egg and water and a little shaved ice in a shaker, and cover with a glass. Shake well and strain into glass. Lemon syrup is particularly good for those who live where lemons are scarce at certain times of the year. In the city, lemons are obtainable all year round, but should be used when they are cheapest.

PINEAPPLE SMASH

Boil together for ten minutes, 2 cups water and 1 cup sugar. Add 1 pint can grated pineapple and juice of 3 lemons. To 1 cup of mixture add $\frac{1}{2}$ cup ice water and freeze until firm. Cool remainder and strain over block of ice. Add just before serving $1\frac{1}{2}$ pints ginger ale and serve in tall glasses with a ball of the pineapple sherbet in each glass. Garnish with sprigs of mint and maraschino cherries.

If you want a pot roast with brown gravy, fill the kettle with enough water to half cover the meat. Cook slowly on top of stove until meat is tender.

PAN-BROILED STEAK

Remove the extra fat from the steak. Heat a frying pan very hot and grease it with the fat scraps. Put in the meat and cook one minute; turn it and sear the other side, then cook more slowly until done, five minutes, if liked rare. Season with salt, pepper and dot over with butter. Serve at once.

BROILER-BROILED STEAK

Roast in a hot oven one and one-half hours, basting every ten minutes, at first with one-half cup hot water and after that has gone, with fat in pan. Remove to platter, pour around tomato or brown sauce, and garnish with parsley. One small onion, peeled and finely chopped, may be added.

SWISS STEAK

Dressing: One-fourth cup flour, one-fourth teaspoon salt, one-eighth teaspoon pepper and onion (if desired). Wipe one and one-half to two pounds of round steak and sprinkle with flour, salt and pepper. Pound this into the meat with a meat hammer or potato masher. Turn the meat and do the same to the other side. Put bacon drippings in the bottom of a baking dish, then the meat, and brown both sides. Add one-fourth cup water or stock, cover and cook in a moderate oven for one hour. If necessary, add more water during the baking.

POT ROAST

Dredge two or three pounds of rump beef with one tablespoon flour and brown thoroughly on both sides in kettle greased with suet or lard. Put pork in roaster, fill cavity with dressing. Spread a piece of greased brown paper over pork, sear in hot oven (450 degrees), twenty to thirty minutes. Then reduce heat to moderate and bake slowly for 3 1/2 hours, basting with two cups water the last half hour of roasting.

SPICED BAKED HAM

For serving the average family, choose a 10 to 12-pound ham or purchase half a ham—the butt end. Plunge into boiling water, boil ten minutes, reduce heat and simmer, allowing twenty-five minutes to the pound. Bake slowly for 1/2 hour with fat side up, basting with a mixture of one cup vinegar, one cup ham liquor and one level teaspoonful of dry mustard. DEEP FAT FRYING

Deep Fat Frying is cooking by means of immersion in deep fat raised to a temperature of from 350 to 400 degrees F. Three pounds of leaf lard or a good vegetable oil are required for deep frying, and a Scotch kettle is the best cooking utensil to use.

Great care should be taken in frying, that fat is of the right temperature; otherwise food so cooked will absorb fat.

DEEP FAT FRYING

Do not fry too much at one time, not only because it lowers the temperature of the fat, but it may cause it to bubble and go over the sides of the kettle. It is not the fat that boils, but the water which the fat has received from the food. All fried food should be drained on brown paper to prevent greasiness.

RULES FOR TESTING DEEP FAT FOR FRYING

1. Drop an inch cube of bread, from soft part of loaf, and if in one minute it is golden brown, the fat is at the right temperature for frying any batter or dough.

2. If after heating the fat, an inch cube of bread is golden brown in forty seconds, the fat is then of the right temperature for frying any cooked mixture.

To Clarify—Melt fat, add raw potato, cut in quarter-inch slices, and allow fat to heat gradually; when fat ceases to bubble and potatoes are brown, strain carefully. The potatoes absorb any odors or gases and collect some of the sediment, the remainder settling to bottom of kettle.

IF THE FAT SHOULD CATCH FIRE

If a kettle of fat should catch fire while being heated, do not attempt to lift or remove it from the fire. Turn off the gas or electricity, and cover with a heavy cloth wrung out in cold water, or place a lid on it, if no heavy cloth or towel is at hand. Never pour water on it.

PICKLES AND RELISHES

GENERAL INSTRUCTIONS

Success in "making pickles" depends largely upon the quality of the vegetable, and also upon the kind and grade of vinegar used. Cucumbers should be examined carefully and all that are soft, discarded. Prepare as soon as possible after taking from the vine. Better results will be secured if a high grade of cider vinegar diluted one-half with water is used. Spices should be bought fresh for each year's pickling, either in the form of "pickling spice" already mixed, or they may be blended at home.

Pickles will toughen and shrivel if too much salt is used. Too strong vinegar may bleach or cause them to soften after pickling. Do not boil vinegar, as it will toughen the pickles. A piece of alum, the size of a bean, dropped into each quart jar of pickles will help keep them firm. Use boiled or soft water.

PICKLING SYRUP

4 cups sugar	2 cups vinegar
2 cups water	1 tsp. cloves
1 lemon sliced thin	1 tsp. allspice
1 tbsp. cinnamon	

Heat together the above ingredients. Keep below boiling point and when sugar is dissolved and ingredients thoroughly blended, pour over pickles.

Note—This Pickling Solution is standard and can be used for practically any kind of pickles.

WINTER DILL PICKLES

Make a brine by adding one-half cup salt to each four quarts water; in this soak medium-sized cucumbers overnight. In the morning drain and wipe dry. Pack tightly in jars with one or two stalks of dill for each jar. Pour over the pickles a solution made of two-thirds cup vinegar, one cup water, one cup sugar and one-quarter cup salt, heated together, but kept below boiling point, until sugar is dissolved and ingredients thoroughly blended. Add a piece of alum, the size of a pea, to each jar and seal.

JEWISH DILL PICKLES

Place two or three dozen medium-sized cucumbers in salt water over night. Wipe each one dry, discarding all that are soft and lay them in a wooden vessel (which is better than a stone one) along with grape leaves and green grapes, if you can get them, whole peppers, or one or two green peppers, a few bay leaves, a few pieces whole ginger, a few cloves and stick of horseradish sliced upon top of all. A few cloves of garlic may be added, if desired. Use plenty of dill between each layer. Boil enough water to cover the pickles. Use about 1 lb. salt to 6 qts. of water and 1 cup vinegar. If you wish to keep them all winter, either seal in clean glass jars, or have barrel closed tight.

RIPE CUCUMBER RINGS

Select large yellow cucumbers. Pare them and cut into slices one-half inch thick. Soak overnight in salt water ($\frac{1}{4}$ cup salt to 1 qt. water). Drain and cook in clear water for twenty minutes. Drain again and cover with pickling syrup. Cook until clear (simmer) and seal immediately in hot, clean jars.

PICKLES AND RELISHES

WATERMELON PICKLE

3 lbs. watermelon rind (prepared)	1 tbsp. stick cinnamon
5 cups sugar	1 tbsp. whole cloves
2 cups vinegar	1 tbsp. whole allspice
1 cup water	1 lemon

Let prepared rind stand overnight in hot water (2 tbsp. salt to 1 qt. water). Drain, cover with fresh water and boil until tender. Mix sugar, vinegar and water. Add spices in bag, and lemon, sliced thinly, add watermelon and cook until transparent. Turn into clean, hot jars and seal, after removing spice bag.

STUFFED PEPPER PICKLE

20 to 25 small green peppers	1 tsp. ground mustard
1 small head cabbage	1 cup salt
2 med. sized onions	1 tsp. celery seed
1 tsp. ground cinnamon	Vinegar
1 tsp. ground cloves	

Wash all the vegetables carefully, cut the tops of the peppers almost off and remove the seeds. Cover with cold water and the salt and soak overnight. In the morning drain and fill with a stuffing made as follows: Chop the cabbage and onions fine, mix well with the cinnamon, cloves and mustard. Tie the tops on securely, pack in a stone jar and cover with boiling vinegar. Put celery-seed in a muslin bag and place in the jar if you like the flavor of celery. Keep the jar well covered and do not eat the peppers for six weeks.

CUCUMBER PICKLES (SOUR)

100 cucumbers	2 tsp. salt
Vinegar	1 cup sugar
1-oz. mustard seed	2 red peppers
1-oz. cloves	

Use the smallest cucumbers you can procure, making two and one-half inches the limit of length. Put the spices in thin muslin bags, using at least two bags. Place the cucumbers in a kettle with enough good vinegar of medium strength to cover them. Place the bags of spices in the vinegar, together with the salt and sugar, and the peppers cut in rings. Heat the vinegar as slowly as possible. When it is scalding hot, but not boiling, the pickles are ready to set away. If this recipe is carefully followed, satisfactory results will be obtained. If the vinegar boils, the pickles will soften.

CUCUMBER SWEET PICKLES

Choose small cucumbers. Soak them in weak brine (two tablespoons salt to one quart water) over night. Remove cucumbers from brine, heat brine, skim it and pour over pickles again, and let stand for two days. Repeat this process each morning until the eighth day, then remove pickles from brine, cover them with pickling syrup, heat thoroughly and pack into clean, hot jars. Seal immediately.

PICKLES AND RELISHES

BREAD AND BUTTER PICKLES

Slice three times as many cucumbers as onions; slice crosswise and do not peel, using medium-sized onions and cucumbers. Sprinkle with salt and let stand two hours. Drain off salt water and cover with equal parts cider vinegar and water. Let stand overnight. Then drain and discard vinegar. In soaking cucumbers in vinegar and water, use enough to cover, then when draining it off measure just how much has been used. By doing this you can tell how much of the pickling solution you will need. To each quart of vinegar, add

- | | |
|----------------------------|------------------------|
| 1 cup sugar | 1 tsp. turmeric powder |
| 1 tbsp. white mustard seed | 1 tsp. celery seed |
| 1 tsp. black pepper | |

Heat to boiling point. Pour over cucumbers and onions. Seal in pint jars.

MIXED PICKLES

- | | |
|---|------------------------------------|
| 1 qt. small cucumbers | 1 pt. celery cut in 2-inch lengths |
| 1 pt. pickling onions | 4 tbsp. white mustard seed |
| 1 pt. small or large carrots, quartered | 1 cup sugar |
| 2 red peppers, seeds removed | 4 cups cider vinegar |
| | 4 tbsp. salt |

Soak onions and cucumbers separately for twenty-four hours, in a brine made in the proportion of one cup salt to one gallon water. Remove from brine, soak in cold water for two hours and drain. Add spices, sugar and vinegar and let stand over night in a covered vessel. Drain off vinegar, heat it, add vegetables and allow mixture to simmer for fifteen minutes. Seal immediately in clean, hot jars.

PICKLED BEETS

- | | |
|---------------------------|------------------|
| 1 3/4 cups prepared beets | 1/8 tsp. pepper |
| 1 pt. sharp vinegar | 1/8 tsp. paprika |
| 2 tbsp. brown sugar | 2 cloves |
| 1 tsp. salt | Green pepper |

Boil and peel the beets as usual. Cut them in fancy forms or leave them whole if preferred. Bring the vinegar to the boiling point, add the sugar and seasonings. Arrange the beets in a jar, alternating the layers with bits of green pepper. Pour boiling liquid over beets and seal.

PICKLED SPICED ONIONS

- | | |
|----------------------|------------------|
| 4 qts. small onions | 2 cups sugar |
| 1 cup salt | 2 tbsp. mace |
| 1/4 cup whole cloves | 2 tbsp. bay leaf |
| A few chili peppers | 2 whole peppers |

Peel onions and cover with hot water and salt (1 cup salt to 1 quart water). Let them stand 24 hours, drain and cover with another hot brine. Next day drain and make a fresh brine, heat to boiling point, add onions and boil three minutes. Drain and put onions in jars with bits of mace, bay leaf, whole peppers, cloves and slices of red pepper. Fill jars with hot vinegar, allowing one cup of sugar to four quarts of vinegar. Seal at once.

PICKLES AND RELISHES

DILL PICKLES

Choose cucumbers from five to six inches in length. Wash well and pack in earthenware jars, or wooden casks. Between the layers of cucumbers place a thin layer of dill, stalks, leaves and seed balls included. When full packed, cover them with a brine solution (1 cup salt to three quarts water). Place a layer of grape or horseradish leaves on top and weigh the whole down with a clean plate and stone. Two or three weeks will be required for curing.

OLIVE OIL PICKLE

Four quarts sliced cucumbers. Cover with a weak brine ($\frac{1}{2}$ cup salt to 1 quart water). Drain, add:

1 tsp. whole cloves	$\frac{1}{2}$ cup olive oil
1 tsp. whole allspice	$\frac{1}{2}$ cup sugar
1 tsp. whole celery seed	1 doz. button onions
2 tsp. cinnamon	Cold vinegar to cover
$\frac{1}{2}$ cup mustard seed	

Mix. Seal in jars without cooking.

CANTALOUPE PICKLES

Select underripe cantaloupe. Cut into sections and remove outer rind. Soak for three hours in salt solution (four tablespoons salt to one quart water). Drain off brine and add the well-drained rind to a pickling syrup made from the following ingredients:

4 cups water	1 tbsp. cinnamon
4 cups sugar	1 tbsp. allspice
1 cup vinegar	1 tbsp. cloves

Boil the rind rapidly in this syrup for ten minutes. Let stand overnight. Drain the syrup from cantaloupe and boil until it coats a spoon. Add cantaloupe and cook until clear (about one hour). Seal immediately in clean, hot jars.

Blanch corn on cob for five minutes. Plunge immediately into cold water for one minute and cut the grains from the cob. Chop other ingredients; do not grind them. Combine all the ingredients and cook mixture until vegetables are tender (for 20 to 30 minutes). Seal relish in clean, hot jars.

PICKLES AND RELISHES

CHOW CHOW

| 2 medium-sized onions, | 1 tbsp. mustard |
| chopped fine | 1 tsp. cinnamon |
| 3 green peppers, chopped fine | 1 tsp. nutmeg |

PICKLES AND RELISHES

TOMATO KETCHUP

- | | |
|-------------------------------|------------------------|
| 1/2 pk. tomatoes | 2 tsp. celery salt |
| 3 red peppers | 2 tsp. ground mustard |
| 2 med. sized onions, cut fine | 1 tbsp. whole allspice |
| 2 tbsp. salt | 1 tbsp. cloves |
| 1/3 cup sugar | 1 tbsp. cinnamon |
| 2 cups vinegar | 1 tsp. paprika |

Cook tomatoes, peppers and onions together without adding water. Press mixture through strainer, and measure pulp. To pulp (4 qts.) add the salt, sugar and spices. Place whole spices in a bag during the cooking and remove bag before pouring the ketchup into jars. Ground spices, except paprika, will darken ketchup. Long, slow cooking also gives a dark color. Cook ingredients together, except vinegar, rapidly for 1 hour, add vinegar and cook mixture until it is thick. Seal in clean, hot jars. It should be bright red in color.

GRAPE KETCHUP

- | | |
|--------------------|------------------|
| 4 lbs. grapes | 1/2 tsp. salt |
| 1 lb. tart apples | 2 tbsp. cinnamon |
| 4 cups white sugar | 2 tsp. allspice |
| 1 1/2 cups vinegar | 2 tsp. cloves |

Wash grapes and remove from stems. Place in a pan. Do not add any water. Steam them until soft. Cook apples until tender. Press the fruit through a sieve, add remaining ingredients and simmer the mixture for twenty minutes. Seal in clean, hot jars. The spices should be whole and tied in a cheesecloth while cooking, and be removed before the ketchup is sealed. Ground spices may be used, but they give the product a darker color.

SPICED AND PICKLED FRUITS

GINGER APPLES

- | | |
|--------------------------|--------------|
| 1 qt. sour apples, diced | 1 lemon |
| 2 cups brown sugar | 2 cups water |
| 6 pieces ginger root | |

Wipe, pare, quarter, core and cut the apples into small squares. Grate the rind of the lemon. Boil water, sugar and lemon juice 12 minutes, or until clear, add the rest of the ingredients and cook slowly two or more hours until thick and brown. Will keep for several weeks if filled while hot, in air tight jars.

PICKLED PEARS

A small, rather hard pear is best. Leave stems on. Pare if skin is tough. If large pears are used, pare, core and quarter.

- | | |
|--------------------|------------------------|
| 4 qts. pears | 1/2 oz. stick cinnamon |
| 4 cups white sugar | 1/4 oz. whole cloves |
| 2 cups vinegar | |

Boil together sugar, vinegar and spices for twenty minutes. Place pared fruit into syrup and cook until tender. Pack into clean, hot jars and fill with hot syrup. Seal jars immediately.

SPICED AND PICKLED FRUITS

- | | |
|------------------------------|------------------------|
| 12 pears | 2 oz. preserved ginger |
| 8 cups granulated sugar | (cut fine) |
| 4 lemons (juice) | 4 cups water |
| 2 lemons, grated yellow rind | |

Wash, peel and cut pears into small pieces. Mix remaining ingredients together and bring to boil. Place in pears and boil slowly until mixture is thick. Pack into hot, clean jars and seal immediately.

PICKLED PEACHES

- | | |
|--------------------|----------------------|
| 1/2 peck peaches | 1 pint vinegar |
| 2 lbs. brown sugar | 1 oz. stick cinnamon |

Cloves

Boil sugar, vinegar and cinnamon twenty minutes. Dip peaches quickly in hot water and remove skins. Stick each peach with four cloves. Put into syrup and cook until tender. Pack into clean, hot jars and fill with hot syrup. Seal immediately.

PICKLED CRAB APPLES

Choose firm crab apples of uniform size. Do not pare, but remove blossom ends. Make a spiced syrup of following proportions:

- | | |
|------------------|----------------|
| 1 qt. vinegar | 4 cups sugar |
| 1 tbsp. cinnamon | 1 tbsp. cloves |
| 1 tbsp. allspice | 1 tbsp. mace |

Cook syrup until it coats a spoon, add the apples and heat them slowly to avoid bursting. Simmer them until tender. Pack into clean, hot jars, cover with syrup and seal at once.

- | | |
|------------------|--------------------|
| 6 lbs. plums | 1 tbsp. cinnamon |
| 3 1/2 lbs. sugar | 1/2 tbsp. allspice |
| 1 pt. vinegar | 1/2 tbsp. cloves |

Remove stones from plums, or prick with fork. Boil vinegar, sugar and spices, then add plums and boil slowly thirty minutes. Place in jars and seal.

GRAPE JUICE (COOKED)

Use clean, well ripened, but not overripe grapes. Pick over and wash grapes. Place in kettle, barely cover with water and boil until seeds are free. Strain through cheesecloth bag without squeezing. Measure the juice and replace on fire and bring to boiling point. Add one-half cup sugar to each quart of juice and let the mixture boil five minutes. Pour into hot jars and seal immediately.

GRAPE JUICE (UNCOOKED)

Wash and stem grapes. Measure and place 1 cup grapes into clean, hot, quart jar. Add 1 cup sugar. Fill jar with boiling water and seal immediately. Invert jar for a few hours before storing. Will be ready for use in about 6 weeks.

APPLE CIDER

Press out the juice of uncooked fruit in a cider-press, fruit-press, or home-made press. Warm the juice in an enamel kettle to 110 degrees F. Pour while warm into hot, clean jars, partly seal, as for canning, and process for 30 minutes in a water bath with temperature at 180 degrees F. (30 degrees F. below boiling). Remove from the water bath and seal immediately. Store in a cool, dry place.

JELLIES

Jelly is the product obtained by combining the juice or combination of juices of certain fruits with the right proportion of sugar and cooking the mixture until it becomes a clear, tender, sparkling, transparent, quivering mold.

All fruit juices do not make a perfect jelly. To make a good jelly it is essential that the fruit juice contain acid and a natural jelly making substance called pectin, in proper proportions.

Some fruits contain proper proportions of acid and pectin to make a perfect jelly. Other fruits are deficient in either pectin or acid. Juices from these fruits may be combined with fruit juices which contain sufficient pectin or acid to form a good jelly. Sugar is just as necessary as pectin and acid. Sugar is added but acid must be present in the fruit juice.

MAKING THE JELLY

Select and wash fruit. Remove hulls, stems and blossom ends. Cut hard fruits into pieces without peeling or coring.

EXTRACTION OF JUICES

For *Soft Fruits* use just enough water to prevent them from sticking. Heat gradually, mash while heating, and cook until the pulp has lost its color.

For *Hard Fruits* cook with just enough water to cover until the fruit is tender. Do not mash if you wish to have a clear jelly. Strain the juice through a wet flannel jelly bag, but do not squeeze, as this will give a cloudy jelly.

When the juice has stopped dripping from the jelly bag, return the pulp to the preserving kettle, add enough water to cover, heat gradually and simmer for thirty minutes, and strain again through the jelly bag. Test for pectin, and if the test shows sufficient pectin present a third extraction may be made. Heat the juice obtained from the first extraction separate from the juice obtained in second and third extractions, as juice from the first extraction usually makes a clearer jelly.

SUGAR

The sugar content should balance the pectin. Too much sugar makes a gummy jelly which will not mold, while too little sugar produces a tough jelly. Currants, unripe grapes and wild apples are practically the only fruit juices which require an equal measure of sugar. Two-thirds as much sugar as juice is a good proportion for most fruits.

COOKING

To obtain best results in jelly-making, it is advisable to work with a small quantity of juice. Two quarts of juice is a sufficiently large quantity to handle at one time.

Measure juice, add sugar and boil rapidly for five minutes and stir until the sugar is dissolved. Skim when jelly is done.

JELLY TEST

To test the jelly, dip a spoon into the juice, and if it sheets and two drops hang together from the side of the spoon, the jelly is done and should be removed from the fire immediately.

If a confectioner's thermometer is used, the temperature should read 221-223 degrees. Use drop test also.

JELLIES

SEALING AND STORING

Skim juice and pour, while hot, into clean, hot jelly glasses. Fill the glasses full, as jelly shrinks as it cools. When jelly is cold and firm, cover with hot paraffin. A small teapot or pitcher with a spout is handy for pouring paraffin. After paraffin is cold, cover jelly glasses with tin lids or tight paper covers.

MINT JELLY

Wash mint and chop fine. To each cup of chopped mint add $\frac{1}{4}$ cup sugar and $\frac{1}{4}$ cup water, and let stand for several hours, or overnight. Bring to boiling point. Combine sugar and apple juice, using two-thirds cup sugar to 1 cup apple juice. Cook and test for jelly, and when the jelling point is obtained, add green vegetable coloring and 1 or 2 tablespoons prepared mint for each quart of apple juice. Mint jelly is a favorite accompaniment for roast lamb.

QUINCE JELLY

Quinces have too little acid and too much pectin to make a desirable jelly when the juice alone is used. An equal amount, or twice as much tart apple improves the flavor. Equal parts of cranberry, quince and apple juice give a jelly of rich, red color and delicious flavor.

Cut the quinces into small pieces, do not pare, but remove core and seeds, as they prevent the jelly from forming correctly. Add sufficient water to cover and cook until tender. Quinces require long cooking to become tender and to bring out their flavor and deep, rich color. Drain off juice. Use two-thirds as much sugar as fruit juice. Follow general directions for making jelly. The pulp may be used for making conserve or butter.

APPLE JELLY

Wipe apples, remove stem and blossom ends, and cut in quarters. Put in a granite or porcelain-lined preserving kettle, and add cold water to come nearly to top of apples. Cover, and cook slowly until apples are soft; drain through a coarse sieve. Avoid squeezing apples, which makes jelly cloudy. Then allow juice to drip through a double thickness of cheese-cloth or a jelly bag. Boil twenty minutes, and add an equal quantity of heated sugar; boil five minutes, skim, and turn in glasses. Put in a sunny window, and let stand twenty-four hours. Cover and keep in a cool place. If apples are pared, a much lighter jelly may be made.

CRAB APPLE JELLY

Follow recipe for apple jelly, leaving apples whole instead of cutting in quarters.

GRAPE JELLY

Grapes should be picked over, washed and stems removed before putting into a preserving kettle. Heat to boiling point, mash and boil thirty minutes; then proceed as for blackberry jelly. Wild grapes makes the best jelly.

GREEN GRAPE JELLY

Grapes should be picked when just beginning to turn. Make same as grape jelly.

JELLIES

CURRENT JELLY

If jelly having a tart flavor is desired, currant jelly should be tried. This kind of jelly is especially good to serve with the heavy course of a meal. Put them into a kettle and add about one-fourth as much water as currants. Boil until the currants are reduced to a pulp. Pour into a jelly bag and strain. Make at least one more extraction and a third extraction, if there is a fairly large quantity of pulp. When all the juice has been strained from the pulp, strain it again through the bag or a heavy cloth. Measure 6 or 8 cups of juice into a kettle, boil for about fifteen minutes and then add from three-fourths to an equal amount of heated sugar. Remove the scum as it forms, taking off as much as possible before the sugar is added. Continue to boil until tests show that mixture has cooked sufficiently. Remove from heat and pour into hot glasses. Cool, seal, label and store.

BLACKBERRY JELLY

Pick over blackberries, wash and drain. Mash a few in the bottom of a preserving kettle, using a wooden potato masher; continue until berries are used. Cook slowly. Strain through a coarse strainer, then allow juice to drop through a double thickness of cheese cloth or a jelly bag. Measure, bring to boiling point and boil fifteen minutes; add an equal measure of heated sugar, boil three minutes, skim and pour into glasses. Place in a sunny window and let stand twenty-four hours. Cover and keep in a cool, dry place.

CRANBERRY JELLY

4 cups cranberries
1 1/4 cups sugar

1 cup boiling water

Pick over and wash cranberries. Put in a stewpan with one cup boiling water and boil twenty minutes. Rub through a sieve, add sugar, and cook about five minutes, or until it forms a thin coating on the spoon. Turn into a mold or glasses. Serves eight.

BUTTERS, CONSERVES AND JAMS

A *fruit butter* is the product resulting from cooking fruit pulp with sugar (with or without spices) to the consistency of thick paste, suitable for spreading.

A *conserve* is a mixture of several fruits and is made like jam. It may contain nuts or raisins or both, or it may be made without nuts or raisins.

A *jam* is a variation of a preserve. The product is cooked to a thick mass and the proportion of sugar used is less than the amount used for preserves. For jam use 1/2 to 3/4 pound sugar to 1 pound fruit.

PEACH BUTTER

Peel and stone peaches. Cook in as small an amount of water as possible until they are reduced to a pulp. Add one-half as much sugar as pulp and cook mixture until it is thick and clear, stirring frequently to prevent burning. Spices may be added, if desired. Pack into clean, hot jars, and seal at once.

BUTTERS, CONSERVES AND JAMS

Add the skins to pulp and to each 5 pints of fruit add 8 cups brown sugar and 2 table-spoons each of cloves and cinnamon. Boil the mixture 1 hour, add 1 cup cider vinegar and continue boiling until mixture is thick. Stir constantly to prevent burning. Pack butter into clean, hot jars and seal immediately.

PEAR BUTTER

Wash pears and without peeling boil them until they fall to pieces. Press through a colander to remove cores, seeds and stems. Measure pulp and add half as much sugar as pulp. Add spices to suit taste (cinnamon and cloves). Cook mixture slowly until it becomes smooth and thick, stirring frequently to prevent burning. Pack hot butter into clean hot jars and seal immediately.

YELLOW TOMATO AND PINEAPPLE CONSERVE

Pare and cut one small, fresh pineapple into small cubes, discarding cores. Simmer five to seven minutes in sufficient fresh water to cover (or use 2 cups canned pineapple, cut in pieces, together with the juice). Add 3 lbs. granulated sugar and 1 quart pear-shaped yellow tomatoes, which have been scalded, cold dipped, peeled and quartered. 6 lemons

1 cup seeded raisins
8 cups sugar

Peel tomatoes and cut in thin slices. Wash lemons and slice very thin. Put all ingredients in saucepan and cook slowly for about $1\frac{1}{2}$ hours, or until mixture is of the consistency of marmalade (to 220 degrees). Turn into sterilized glasses or jars and seal at once.

ORANGE MARMALADE

4 medium sized or
3 large oranges
4 lemons

Water
Sugar

Slice unpeeled fruit very thin. Measure quantity of sliced fruit. Add five times as much cold water. This will require a generous-sized receptacle. At once, or at any time during the next 24 hours, boil hard for 50 to 60 minutes. This should reduce quantity one-half. Measure into 2 or 4 cup lots. Do not cook more than 4 cups at one time for best results. If oranges are rather sweet, add additional lemon juice at this stage—about 1 tablespoon to 1 cup of fruit. Boil 5 to 10 minutes. Add $\frac{3}{4}$ cup sugar for each cup of fruit. Boil ten minutes or until jelly test shows sufficiently cooked. Pour into sterilized glasses. Cover with paraffin when cold.

CANNING—CHART III

COMBINATION OF COLD-PACK AND HOT-PACK METHODS

The hot-pack method of canning is a combination of the advantages of the open-kettle method and any possible advantages of the cold-pack method. Pre-cooking the food is heating it in a minimum quantity of liquid until it boils, which is substituted for the usual blanching and the cold dip. This thoroughly salts and shrinks the food so as to facilitate packing and drives out any inclosed air.

CANNING

A "Hot-water Bath" consists of any container which can be equipped with a suitable rack for holding jars and which allows for a free-circulation of boiling water under and around the jars. Jars must not touch each other. The container must be deep enough to permit the water to fully cover the jars. Cover the water-bath with a tight fitting lid.

A tin lard pail or wash-boiler can be easily converted into a "water-bath canner." Success in keeping products canned depends greatly upon perfect jar rubbers.

GENERAL DIRECTIONS—FRUITS

Select fresh, firm, sound products.

Pack without crushing into clean, hot jars, to which new jar rubbers have been fitted.

Add hot syrup, filling jars within one-quarter to one-half inch of the top.

Partly seal.

Place the jars on the rack in the water-bath.

Process—sterilize by heating in cooker for required length of time. (Consult chart.)

Begin counting time for processing when the water reaches boiling temperature (212 degrees F.).

When the processing is finished remove the jars from the water and finish sealing. Invert the jars and allow to cool as quickly as possible. It is wise to watch for spoilage for about a week before storing in a dark place.

PREPARATION OF BRINE

Brine—2½ ounces of salt (5 tbsp.) to one gallon of water for brine, or one tablespoon of salt to each quart of vegetables.

Add one tablespoon of sugar, if desired, to corn and peas.

For vegetables which are especially difficult to can, add one tablespoon of vinegar or tablespoon of lemon juice to each quart of vegetables.

PRESSURE COOKER

There are many makes of steel pressure cookers on the market, all of which are of the same principle.

GENERAL DIRECTIONS

Prepare fruits, vegetables, and meats as in the regular way. Fit in your jar rubbers on the jars and fill to the neck and within one inch from the lid with the product. Screw down the lids firmly. Place jars on the aluminum rack within the cooker and process for required length of time. (See chart.)

When processing period (cooking in cooker) is complete, remove the cooker from the fire, but do not open until the indicator on the gauge points to zero and the cooker has cooled. Remove the jars from the cooker. If the covers of the jars are loose, screw down tightly. Set jars aside to cool.

CANDY

FONDANT

2 cups sugar
 $\frac{3}{4}$ cup water

2 tbsp. corn syrup or
1 tsp. lemon juice

Place all ingredients in a sauce pan and stir constantly until sugar is dissolved. As mixture boils wipe down the side of the pan with a fork around which a cloth is wrapped, or cover pan with lid to prevent crystals from forming. Cook until mixture forms a very soft ball when dropped into cold water. Remove from fire, pour on a well-oiled plate, cool, and stir with a wooden spoon until creamy. Then knead with the hands like kneading bread. It is now ready for use in creams or stuffing fruits.

PENOCHE

2 cups brown sugar
1 cup milk
1 tbsp. corn syrup

$\frac{1}{2}$ tsp. vanilla
1 tbsp. butter
 $\frac{1}{2}$ cup chopped nuts

Combine all ingredients, except butter, vanilla and nuts. Boil until a soft ball is formed in cold water. Remove from fire, add butter, let cool, add vanilla; then beat until stiff. Add nuts and pour into an oiled pan. Cut in squares.

CHOCOLATE FUDGE

2 cups sugar
 $\frac{3}{4}$ cup milk
2 squares chocolate or
6 level tbsp. cocoa

1 tsp. vanilla
 $\frac{1}{4}$ level tsp. salt
2 tbsp. corn syrup
1 cup chopped nuts

1 tbsp. butter

Mix all ingredients except butter, vanilla and nuts. Cook until it forms a soft ball in cold water. Remove from fire, add butter. Allow to cool; then add vanilla and beat until it holds its shape. Add nuts and pour into an oiled pan $\frac{3}{4}$ inch thick; cut into squares.

DIVINITY

Two and one-half cups of sugar, one-half cup water. Cook until it will spin a thread. Pour one-half of it into the whites of two eggs beaten stiff. Cook the other half until it will harden in water, then combine the two. Beat until creamy, pour into a buttered dish or drop from spoon.

ENGLISH TOFFEE

$1\frac{3}{4}$ cups sugar
 $\frac{1}{8}$ tsp. cream of tartar
1 cup cream

$\frac{1}{2}$ cup butter
 $\frac{1}{8}$ lb. almonds, chopped
 $\frac{1}{8}$ lb. almonds, ground

3-oz. milk chocolate

Place sugar with cream of tartar in a deep sauce pan, rounded at the bottom; add cream, boil a few minutes, stirring with wooden spoon. Add butter, let boil until very thick and light brown, stirring all the time. Add chopped nuts. Pour at once on the well greased top of an inverted pan.

Melt chocolate in covered double boiler. Pour over candy, spreading evenly. Turn at once on a pan on which one-half of the ground almonds are sprinkled, then pour chocolate over other side of the candy and sprinkle with the remaining ground almonds. Remove from pan and break in pieces.

CANDY

CARAMELS

2 cups sugar
 $\frac{3}{4}$ cup corn syrup

$\frac{1}{3}$ cup butter
1 cup cream

1 teaspoon vanilla

Place sugar, corn syrup, butter and cream in saucepan and stir constantly until the mixture boils. Let mixture boil until a firm ball forms in cold water. Remove from fire, add vanilla and pour into well oiled pan $\frac{3}{4}$ -inch thick. When cold, cut into squares.

TAFFY APPLES

Select small, firm, ripe apples, wash, stem and run wooden skewers through each. Boil two cups brown sugar and one-half cup hot water until it threads. Add one tablespoon of lemon juice and stir in. Dip apples in syrup, turning over and over until each apple is thoroughly coated with syrup. Stand on oiled paper to cool and harden.

MOLASSES TAFFY

2 cups molasses
1 cup sugar
 $\frac{3}{4}$ cup water

4 tbsp. butter
 $\frac{1}{2}$ tsp. vanilla
 $\frac{1}{8}$ tsp. soda

Cook the molasses, sugar and water slowly to the hard-ball stage, or 260 degrees F., stirring during the latter part of the cooking to prevent its burning. Remove from fire, add the butter, soda and vanilla and stir enough to mix. Pour into a greased pan and, when cool enough to handle, pull it into a long rope and cut with scissors into small pieces.

POP CORN BALLS

2 cups sugar
 $\frac{1}{3}$ cup water

1 tbsp. butter
2 to 3 qts. popped corn

Combine the water, sugar and butter and boil to 300 degrees, or until a little when tried in water is very hard. Stir the corn into this. It must take up all the syrup. Slightly oil the hands and form into balls. Roll these in waxed paper. To color, add a little bit of red sugar, liquid or paste coloring to the syrup.

PEANUT BRITTLE

Put two cups brown sugar in a frying pan on a medium hot stove. Stir and mash constantly with a wire potato masher until it is melted. Put in one-fourth teaspoon soda and stir well, then pour immediately over peanuts or other nuts which have been sprinkled on a buttered pan.

NEW ORLEANS PRALINES

1 cup maple or brown sugar
 $\frac{1}{2}$ cup molasses
1 cup cream

$\frac{1}{4}$ cup butter
 $\frac{1}{2}$ tsp. vanilla
1 pint pecan nutmeats

Boil first 4 ingredients until soft ball stage, stirring constantly. Pour this over nutmeats and stir until it begins to sugar. Drop from tip of spoon in small piles on buttered pans.

MEASUREMENTS AND EQUIVALENTS

All measurements in this cook book and in the CHICAGO EVENING AMERICAN newspaper articles are level. One should never use a heaping teaspoon, tablespoon or cupful when a level one is meant. Flour is always sifted before measuring, then again sifted with the other dry ingredients as directed in recipe.

To measure dry material, fill the cup, spoon or other measure to overflowing, then pass a spatula or the straight edge of a knife over the top, leveling the material. For an accurate half-teaspoon or tablespoon of dry material, when one does not have a set of standard measuring spoons, fill spoon as above, then, owing to the difference in capacity of the tip and bowl of the spoon, divide the material in halves lengthwise.

To measure liquids, fill the measure with all it will hold.

COOKING AND BAKING HINTS

Too much flour will make a cake dry and crumbly, bread solid and heavy, sauces thick and pasty.

Too much fat will make cakes oily and may cause them to fall. It will make grease-soaked doughnuts and greasy gravies and sauces.

Too much sugar will make a cake with a hard crust, or a sticky cake. It makes a soft, sticky jelly.

Too much liquid will make a cake that falls easily.

Too much soda gives a disagreeable taste and bad color to breads and cakes. We advocate one-half level teaspoon soda to one cup sour milk. Sift soda with flour.
